

:::: Scope of Work Document

Scope of Work (SOW) -

Build an application or add a unique twist on a common application. The application can be a game, a business support program, or robot to give a few examples. Projects should focus on creating C++ or Swift applications that utilize long-term data storage.

Please submit your Scope of Work Document detailing the application you plan to complete. Your last assignment will implement your plan

Student Project – Scope of Work (SOW)

Project Title: Memory Game

Student Name: Destiny Parker

Date: 07-30-26

1. Project Overview

(Write 2–3 sentences about what your project will do.)

My project is a memory game that tests your memory by increasing difficulty on how long and how much you can remember from a number sequence. The differing modes also make it to where you can really challenge your memory.

2. Features

- Powerups
- Play on different difficulties
- Life system
- Leaderboard
- Login
